

## **Police and Technology Assignment 2: Athens-Vodafone Hack**

**Assignment:** Find out as much as possible about the Vodafone hack that occurred in 2004 and resulted in the bugging of the phones of over 100 important dignitaries. Importantly, I am looking for summary articles that provide details about the actual crime. In addition, you will need to provide a summary write-up of the article that you have found. In the summary needs to be the following:

1. Where did it occur
2. A list of at least 3 people who were bugged by the hack.
3. Who was found responsible, if anyone?
4. Who conducted the investigation and is it complete?
5. How did they find out about the hack and how long did it last.
6. Any other important information.

As usual your write up will need to be typed and turned in on Monday February 1<sup>st</sup>. No late assignments will be accepted unless there is good cause.
